Subject: Visitors to UVA

Dear Colleagues,

Guidance issued by President Ryan on March 11 asks that those hosting events involving visitors traveling to UVA, regardless of the size of the event, consider either alternatives to in-person events or cancelling those events. I strongly encourage you to cancel grand rounds, visiting professorships, or other events that bring non-essential visitors to the University through April 15.

We understand that the situation is evolving daily and additional changes may be necessary.

Thank you.

David

David S. Wilkes, MD
Dean, UVA School of Medicine
James Carroll Flippin Professor of Medical Science
