Lovebirds

The image shows the word "Lovebirds" in a classic serif typeface. The letter "L" is the primary focus, with three red circles highlighting its decorative features: the top-left and top-right corners, and the bottom-left corner. The word "Lovebirds" is written in a smaller size to the right of the "L".

Lovebirds

The image shows the word "Lovebirds" in a clean, modern sans-serif typeface. The letter "L" is significantly larger than in the first example, and the word "Lovebirds" is written in a smaller size to its right. This version lacks the decorative flourishes of the serif font.
