

ERIC LOTH

Rolls-Royce Professor

Mechanical and Aerospace Engineering

University of Virginia

[Fluid Research and Innovation Laboratory](#)

122 Engineer's Way, Charlottesville, VA 22904

Phone: (434) 924-3046

e-mail: loth@virginia.edu

ENGINEERING EDUCATION

University of Michigan, Ph.D. Aerospace Engineering (1985–1988)

Pennsylvania State University, M.S. Aerospace Engineering (1984–1985)

West Virginia University, B.S. Aerospace Engineering (1979–1983)

ADMINISTRATIVE TRAINING

Harvard Business School, Executive Education, Authentic Leadership (Summer 2019)

University of Virginia, Provost's Leadership in Academic Matters (Fall 2019)

EMPLOYMENT

University of Virginia Mechanical & Aerospace Engineering, Charlottesville, VA

Professor (2010–present)

Department Chair (2015–2022)

Associate Chair (2010–2015)

University of Illinois at Urbana-Champaign, Aerospace Engineering, Urbana IL

Professor and Willett Faculty Scholar (2002–2009)

Associate Head (2008–2009)

Associate Professor (1995–2002)

Assistant Professor (1990–1995)

Naval Research Lab, Lab for Comp. Physics & Fluid Dynamics, Washington D.C.

Aerospace Engineer (1989–1990)

Berkeley Research Associates, Springfield, VA

Staff Scientist (1988–1989)

AFFILIATE APPOINTMENTS

Energy Resilience Institute, University of Virginia (2021- present)

LinkLab, University of Virginia (2020 - present)

National Institute of Aerospace, Liaison (2018 - present)

Governor of Virginia, Aerospace Advisory Panel (2011–2014)

Cambridge University (UK), Visiting Scholar, Engr. Dept. (Fall 2004, Spring 2011)

National Energy Technology Lab, Summer Faculty, Morgantown WV (2002)

Brown University, Visiting Associate Professor (Fall 1997 sabbatical)

University of California at San Diego, Visiting Associate Prof. (Fall 1997 sabbatical)

Molten Metal Technology, Sr. Res. Engineer, Waltham MA (Summers 1996 & 1997)

Naval Research Lab, Senior Fellow & ASEE Summer Faculty, Wash., D.C. (1995)

Arnold Engineering and Development Center, AFOSR Summer Faculty, TN (1993)

Science Applications Intl. Corp., Sr. Research Engineer, VA (Summers 1990, 1991)

ADMINISTRATIVE TEAM-BASED HIGHLIGHTS

While MAE Department Chair (2015-2022)

MAE Faculty Highlights

- Tenured faculty reached new levels of productivity
 - Google Scholar H-index average > 33.8 (highest ever)
 - External research funding per faculty >\$737K/yr (highest ever)
 - Research proposal value per faculty >\$3,902K/yr (highest ever)
 - PhD students advised per faculty > 6.3 (highest ever)
- MAE Full Professors who are national fellows now 80% (highest ever)
- MAE faculty award firsts:
 - Presidential Early Career Award for Scientists and Engineers (Hopkins)
 - National Academy of Engineers (West)
 - National Academy of Inventors (Gillies)
 - DARPA Young Faculty Award (Balachandran, Dedic)
 - NASA Early Career Award (Dedic)
- MAE faculty increased cross-disciplinary activities with first ever joint appointments with Chemical Engineering, Electrical & Computer Engineering, Engineering & Society, Environmental & Systems Engineering, and Orthopedics
- MAE brought in 20 new faculty: Balachandran, Chang, Dedic, Esfarjani, Fittro, Furukawa, Gerling, Green, Ma, Momot, Opila, Quinn, Ramasubramanian, Reidenbach, Reimers, Salzar, Schnipke, Smith, Sun, and Williams (below)

MAE Curricula and Graduate Programs

- Major revisions of our BS and PhD curricula (largest in decades) with several new courses to improve theory/experiment/computation integration increased flexibility
- MAE PhD enrollment per year grew by 174% with 450% increase in women
- Partnered with UVA's School of Commerce ([#7 in USN&WR](#)) to help increase MAE Master of Engineering enrollment by 420% in 3 years
- Restructured Master of Engineering curricula to include the Case Study method of the Harvard Business School (HBS) with [one of UVA's greatest entrepreneurs](#)

MAE Rankings

- #1 [USN&WR](#) Grad Programs among public MAE departments with 25 or less tenure/tenure-track faculty
- #6 Online Mechanical Engineering Degree ([Masters Programs](#))
- #8 Online Mechanical Engineering Degree ([Best Colleges](#))
- #12 Aeronautical Engineering [Best Engineering Colleges](#)

...continued: While MAE Department Chair (2015-2022)

MAE Diversity, Outreach, Infrastructure and Finances

- Developed [Diversity, Inclusion and Excellence Task Forces](#) and a [DEI Council](#) for faculty hiring, annual faculty reporting, student recruiting, and department culture
- Hosted Department Heads from: Berkeley, Carnegie Melon, Duke, Georgia Tech, Harvard, Illinois, Johns Hopkins, Michigan, MIT, Northwestern, Penn, Texas, and Yale as well as several members of National Academy of Engineering
- Formed MAE Academy of Distinguished Alumni and hired Advancement Officer and a Communications Director to improve giving and outreach
- Increased MAE departmental alumni giving (by 262%)
- Developed advancement plan that resulted in first MAE named laboratory
- MAE was a key partner to secure \$14.8M in new internal funds for the LinkLab and Multifunctional Material Integrations for infrastructure and equipment
- MAE financial health strongly improved (eliminated over \$1.1M of inherited debt)
- MAE undergraduate laboratories and 3-D printing capabilities upgraded to state-of-the-art equipment, computers and lab space infrastructure with more than \$1.2M in funds from state, institutional, and industry contributed funds
- Developed and funded broad graduate MAE fellowship program for new Ph.D. students focused on excellence and diversity with more than \$1M in awards
- Increased portion of the MAE overhead research returned to faculty (as discretionary funds) from 16.67% to 50%

While Principal (Director) of the International Residential College (2012-2017)

- Instituted new programs which increased incoming student applicants by 310% (largest ever increase and number of applications in IRC history)
- Worked to secure \$13M in Building and Infrastructure Improvements (2017-2018)
- Developed proposal and worked with President's Office to rename Lewis House to Yen House (dedication ceremony featured UVA's President Sullivan)
- Invited and Hosted Several Internationally Distinguished Guests (below):
 - Junot Diaz (Pulitzer Prize Winner)
 - Rita Dove (US Poet Laureate)
 - Diana Eck (National Humanities Medal Awardee)
 - Nat Howell (Former US Ambassador)
 - Helena Kennedy (Baroness & Member of U.K. House of Lords)
 - Larry Sabato (3-time Emmy Award Winner)
 - Theresa Sullivan (UVA President)
 - Katherine Thornton (Hall of Fame NASA Astronaut)
 - Jerry White (Nobel Prize Recipient)
 - Sasheer Zamata (Saturday Night Live TV Star)

RESEARCH HIGHLIGHTS

EXTERNAL RESEARCH FUNDING

Loth Research Expenditures for last 20 years ~ **\$700K/year**

GRADUATE ADVISING

Graduated **30** Ph.D. dissertation students, serving as the primary advisor

Graduated **33** M.S. thesis students, serving as the primary advisor

Current research group of 5 PhD students & 3 Research Scientists:

(Branch, Fletcher, Jennings, Jeong, Rodriguez) & (Kaminski, Stebbins and Tetteh)

PUBLICATIONS

Journal Papers: **>199**

Conference Papers: **> 201**

Book Chapters: **7**

Patents: **9**

h-Index: **51** ([Google Scholar](#))

Citations: **> 10,400** ([Google Scholar](#))

[2023 Top Cited Scientists](#) for Aerospace & Aeronautics (Elsevier, Stanford)

Loth Career Publication Impact Ranking: **#46** worldwide, **#38** for USA

Loth Single Year Publication Impact Ranking: **#27** worldwide, **#20** for USA

UNIVERSITY and RESEARCH LAB INVITED TALKS (summary)

Invited University Talks: **>40**, including Brown, Carnegie Mellon, Cambridge, Duke, Harvard (twice), Oxford, MIT (twice), Penn, and Princeton

Invited National Lab Talks: **>10**, including NASA Glenn Research Center, National Energy Technology Lab, National Institute of Aerospace, National Renewable Energy Lab (thrice), Naval Research Lab, Sandia National Labs

RECENT INVITED TALKS (last 5 years)

[Blades USA](#), February 2024

National Wind Technology Center, National Renewable Energy Laboratory, April 2023

Institute of Ocean Energy, Saga and Kyushu Universities, March 2023

Department of Wind and Energy Systems, Technical University of Denmark, Sept. 2022

Wind Energy Systems Workshop, National Renewable Energy Laboratory, August 2022

Energy Transitions Panel, Austrian Academy of Sciences, March 2022

Barnes McCormick Memorial Lecture, Penn State University, March 2022

Energy Transitions Panel, Austrian Academy of Sciences, March 2022

Keynote for 13th International Conference on Applied Energy, Nov. 2021

World Energy Storage Conference, Chinese Academy of Sciences, June 2021

Host of National Academy of Engineering Panel on Energy Research, IMECE, Nov. 2020

Keynote Speaker at MIT A+B Applied Energy Symposium, May 2019

Host of National Academy of Engineering Panel on Aerospace Research, Sci Tech, Jan 2018

MEDIA COVERAGE SUMMARY:

More than 50 media articles including: [Scientific American](#), [New York Times](#), [MIT Technology Review](#), [USA Today](#), [CNBC](#), [Daily Mail](#) (London), [Los Angeles Times](#), and [Mechanical Engineering Journal Front Covers](#): [Energy Solutions](#) (2016, see right), [Wind Energy](#) (2017), and [Journal of Renewable and Sustainable Energy](#) (2020)
Listed in [Popular Science](#) (June 2015) as one of the 12 scientists who are “The Brilliant Minds Behind the New Energy Revolution”

ADMINISTRATIVE ACTIVITIES

At National/State Level

National Science Foundation Review Panel (October 2023, February 2024)
Academic Program Review Committee, University of Arizona (March, 2023)
Chair of ASME Mech. Engr. Department Heads Exec. Committee (2020– 2021)
Secretary of ASME Mech. Engr. Department Heads Exec. Committee (2019– 2020)
Chair of AIAA Aerospace Department Chair Association (2017–2019)
Chair of Southeast Mechanical Engineering Chairs & Heads Association (2017–2019)
Aerospace Advisory Panel for the Governor of Virginia (2011–2014)

At University of Virginia (2010–present)

Promotion and Tenure Committee, School of Engineering Dept. (2023-2024)
Chair of Mechanical and Aerospace Engineering Dept. (2015–2022)
University of Virginia Academic Leaders Program (2019)
Chair of School of Engineering Department Chairs Meetings (2019–2020)
Chair of School of Engineering Task Force for Effective Practices (2019–2020)
Principal of International Residential College (2013–2008)
Chair of School of Engineering’s Leadership Council (2016–2017)
Chair of Search Committee for Assoc. Dean for Engr Finance & Ops (2016–2017)
Member of Search Committee for Asst Vice President for Research Admin. (2015)
School of Engineering Promotion and Tenure Committee (2013–2015)
MAE Graduate Studies Committee (2012–2015)
Associate Chair of Aerospace Engineering Dept. (2010–2015)
Chair, MAE Tenure-Track Faculty Search Committee (2010–2013)
Chair of SEAS Faculty Hiring Strategic Plan (2011–2012)
School of Engineering Promotion & Tenure Committee (2010–2011)

At University of Illinois (from 2000-2009)

Associate Head of Undergraduate Studies for AE Dept. (2008–2009)
Faculty Search Committee of AE Department (1999-2006, Chair in 2007–2008)
College of Engineering Executive Committee (2002–2008)
College of Engineering Research and Planning Committee (2004–2009)
Chair of AAE Department Planning Committee (2002–2009)
Chair of AAE Department Graduate Policy Committee (2002–2009)
Search Committee for Head of Computer Science Department (2000–2001)
Chair of AAE Department Faculty Meetings (1999–2001)
Chair of College of Engineering Awards Committee (1999–2001)
AAE Department Advisory Committee (2000–2002, 2005–2006)

AWARDS and HONORS

While at the University of Virginia (2010–present)

Founding Board Member, Next Energy, Elsevier (2023–)
Barnes McCormick Memorial Lecture, Penn State University (2022)
Keynote for 13th International Conference on Applied Energy (2021)
MIT/Harvard Applied Energy Symposium, Intl. Scientific Advisory Committee (2021)
School of Engineering Research Innovation Award (2019)
Fellow of AIAA (2017–present)
ARPA-E Congressional Showcase in Washington DC (March, 2017)
Popular Science’s “Brilliant Minds of New Energy Revolution” (2015)
Rolls-Royce Commonwealth Professor, University of Virginia (2014-present)
NASA Patent Application Award (2012)
NSF Innovation Corps Commemoration Ceremony (2012 at NSF HQ)
NASA Group Achievement Award “Large-Scale Low-Boom Supersonic Inlet” (2011)
Yip Fellow, Cambridge University, U.K. Easter Term (2011)

While at the University of Illinois & Naval Research Laboratory (1989- 2010)

Scientific Committee, International Conference of Multiphase Flow (2009–2010)
Fellow of ASME (2008–present)
Academy of Distinguished Alumni of Aerospace Engineering at WVU (2008–)
UIUC List of Teachers Ranked Excellent (1990, ‘91, ‘92, ‘93, ‘95, ‘97, ‘02, ‘05)
Engineering Council Award for Excellence in Advising, UIUC (‘07)
Willett Faculty Scholar, UIUC College of Engineering (2002–2010)
Faculty Fellow, National Center for Supercomputing Applications (2000, 2001, 2002)
NASA “Revolutionize Aviation” Team Award (2001)
Associate Fellow of AIAA (2000–2017)
Senior Fellow, Naval Research Lab, Washington D.C. (1995)
Teacher of the Year, AAE Department, UIUC (1994)
UIUC Campus Research Board Award (1990, 1994)
Finalist, UIUC Vice-Chancellor Teaching Scholars (1994)
UIUC College of Engineering Advisors List, for advising excellence (1993)
UIUC International Paper Co. Undergraduate Instructional Support Award (1991)
National Science Foundation Research Initiation Award (1990)
Department of Navy Exceptional Performance Award (1989)

RESEARCH FUNDING

Current

1. E. Loth (PI) and B. Etienne & Mahoney, C. (Co-PIs) “Super-rated Wind Turbines for Offshore Wind Energy” UVA Explore-2-Build (E2B) Clean Energy Initiative, \$300,000; June 2024 – May 2026.
2. E. Loth “Design of an Inertial Particle Separator Test Facility, Test Conditions and Experimental Diagnostics”; Honeywell; \$82,000; Sept. 2023 – March 2024.
3. Mahoney, C. (PI) and T. Denckla-Cobb, B. Etienne, E. Loth & W. Shobe (Co-PIs) “Appalachian Renewable Energy & Resilience Climate Collaborative” UVA Environmental Institute, \$1,500,000; October 2023 – September 2026.
4. E. Loth (PI) “EAGER Thermo-fluid Physics of isothermal Compressed Air Energy Storage”, National Science Foundation \$100,000; September 2023 – August 2026.
5. H. Bart-Smith (PI) and E. Loth (Co-PI) “Bio-Inspired Renewable Energy (BIRE) for Highly-efficient Low-cost Riverine Hydrokinetics” ARPA-E, \$2,900,000; August 2021 – August 2024.
6. E. Loth (PI) “Unsteady Flow Physics of Particle Separators”, Rolls-Royce, \$1,445,000; Jan. 2011 – Dec. 2024 (via multiple annual renewals).

Past

1. E. Loth (PI), “Ultraflexible Smart Floating Offshore Wind Turbine (USFLOWT)”, Colorado School of Mines, \$150,000; Subcontract to DE-AR0001181, April 2020 – October 2022.
2. E. Loth (PI), R. Blom, T. Griffith, K. Johnson, N. Johnson, and L. Pao “Segmented 50 MW Segmented Ultralight Morphing Rotors (SUMR) for Wind Energy”, ARPA-E, \$6,117,497; DE-AR000066, April 2016 – May 2022.
3. E. Loth “Anti-Icing Nano-Composite Polymer Coatings”, Rolls-Royce, \$818,000 (via multiple annual renewals); June 2012 – December 2020.
4. E. Loth (PI), D. Gayme, L. Pao, D. Sadoway, and S. Smith “Planning Grant: Engineering Research Center for Wind Integrated with Storage for Energy Resilience (WISER)” NSF, \$100,000, Sept. 1, 2019–Aug. 30, 2021.
5. E. Loth “Three-Dimensional Unsteady Swept Icing Aerodynamics” NASA AS&ASTAR Program, \$110,000, August 2016 – August 2019.
6. E. Loth “Computations to Support of Experimental Icing Test of Full-Scale Swept Wings”, University of Illinois/NASA, \$235,835; January 2014 – May 2017.
7. E. Loth “Anti-Insect Fouling Coatings”, Boeing Company (Seattle), \$185,000; January 2014 – March 2016.
8. E. Loth “Nano-Texture Coatings and Spray Simulations for Open Accumulators”, University of Minnesota, \$500,000; August 2010 – August 2015 (part of a \$2,000,000 National Science Foundation grant to University of Minnesota).
9. E. Loth “Ultralight Pre-Aligned Rotor for Off-shore Wind”, Alliance for Sustainable Energy/NREL, \$80,000; January 2014 – November 2015.
10. E. Loth “Ultralight Technologies for Off-Shore Wind Cost-of-Energy Savings”, Dominion Resources, \$150,000; March 2013 – February 2015.
11. E. Loth “Nano-Textured Protective Coatings for Structurally Integrated Panels”, Virginia Commonwealth Research Commercialization Fund, \$150,000; October 2012 – August 2014.

12. M. Bragg and E. Loth "Experimental Icing Simulation Capability for Full-Scale Swept Wings" NASA Glenn Research Center, \$541,989, Jan. 2012 – Dec. 2013.
13. E. Loth "Methodology of a Computational Icing Research Tunnel" NASA Glenn Research Center, \$675,570, January 2009 – December 2012.
14. E. Loth and A. Steele "Ultra-lubricating and Hemocompatible Nanocomposite Coatings for Surgical Devices" National Science Foundation I-Corps Program, \$50,000, Feb. 2012 – July 2012.
15. E. Loth "Low-Cost Nano-composite Coatings for Wind Turbine Surfaces", AREVA, \$310,500; July 2010 – June 2012.
16. E. Loth "Feasibility of Water Aluminum Reactor Power for UUVs", Northrop-Grumman, \$100,000; August 2010 – December 2011.
17. E. Loth, M. Bragg, G. Elliott, & A. Broeren "Development of a Large-Scale Low-Boom Supersonic Inlet for Investigating Micro-Array Flow Control" NASA Glenn Research Center, \$787,292; March 2008 – June 2011.
18. M. Bragg, G. Elliott, D. Bodony & E. Loth "Bypass Flow Analysis" Gulfstream/Rolls Royce, \$666,251; January 2008 – June 2011.
19. E. Loth, G. Elliott, & M. Bragg, "μVG's for Supersonic Inlets" Gulfstream/Rolls Royce, \$700,788; January 2008 – June 2011.
20. E. Loth "SBLI Flow Control with μVG's using LES" NASA Glenn Research Center, \$263,190; May 2007 – December 2010.
21. E. Loth "Nano-Texturing for Fluid Power Efficiency" Center for Compact, Clean and Efficient Fluid Power, NSF Engineering Research Center, \$353,100 July 2006 – August 2010.
22. E. Loth "Carbon Nano-Tube Additives to Reduce Volumetric and Pressure Losses" Center for Compact, Clean and Efficient Fluid Power, NSF Engineering Research Center, \$543,900; July 2006 – June 2010.
23. I. Jasuik, E. Loth and I. Bayer "Novel Biocompatible Bone Adhesion Technology" Grainger Foundation, \$100,000, January 2009 – December 2009).
24. E. Loth and H. Babinsky "Understanding Micro-ramp Control for Shock Boundary Layer Interactions" Air Force Office of Scientific Research, \$120,000; June 2006 – June 2007.
25. E. Loth, "Unstructured Multiphase Code Development" Arnold Engineering Development Center, \$142,000, June 2004 – September 2007.
26. E. Loth "CFD for Refrigerated Display Cases" Carrier Corporation, \$50,000; June 2006 – May 2007.
27. E. Loth, "Optimization of the Icing Research Tunnel" NASA Glenn Research Center, NAG3-2623, \$75,000, October 2005 – October 2006.
28. E. Loth & J.C. Dutton "Supersonic Bump Compression", Boeing, Phantom Works (St. Louis), \$165,115, August 2003 – March 2006.
29. E. Loth, M. Bragg & A. Hamed "Simulation of Icing Technology on Turbo-machinery" Ohio Aerospace Institute, \$150,000, March 2004 – October 2005.
30. E. Loth, "Virtual Icing Research Tunnel" NASA Glenn Research Center, NAG3-2623, \$261,880, June 2001 – December 2004.
31. M. Bragg, P. Voulgaris, N. Sarter, E. Loth, M. Selig, K. Sivier, T. Baser, W. Perkins, and C. Wickens "Smart Icing Systems" NASA Lewis Research Center, NAG 3-2135, Phase I: \$2,196,181, January 1997 – March 2004.

32. E. Loth "Closed-Loop Control of Air Curtains" Air Conditioning Research Center, ACRC-136, \$67,000, Sept. 2001 – Aug. 2003.
33. E. Loth, S. White, P. Guebelle, D. Tortorelli, J. Dutton, A. Alleyne, D. Davis "Smart Mesoflaps for Aeroelastic Transpiration to Control Shock/Boundary-Layer Interactions" DARPA/AFOSR, F49620-98-1-0490, Phase I: \$268,914, July 1998 - June 1999; Phase II: \$2,069,595, July 1999 – September 2002.
34. M. Bragg and E. Loth "Effect of Large-Droplet Ice Accretions on Airfoil and Wing Aerodynamics and Control", Federal Aviation Administration, DTFA 96-G-023, \$900,199, June 1996 – December 2002.
35. E. Loth, "MEMS-based Microbubble Simulations for Ultra-Efficient Drag Reduction" DARPA, MDA-972-01-C-0042, \$119,345, March 2001 – Sept. 2002.
36. J. Molner and E. Loth "Contaminant Dispersion around Large Urban Buildings" National Center for Supercomputing Applications, \$39,766, Aug. 2001 – July 2002.
37. E. Loth "Bubble Dispersion in Non-Equilibrium Turbulent Boundary Layers" Office of Naval Research, N00014-96-1-0312, \$291,302, Jan. 1996 – May 2000.
38. E. Loth and P. Hrnjak "Understanding and Reducing Refrigerated Air Curtain Entrainment" Air Conditioning Research Center, \$125,820, Aug. 1999 – July 2001.
39. E. Loth "Virtual Rendering of Multiphase Flows" National Center for Supercomputing Applications, \$26,000, August 2000 – July 2001.
40. E. Loth and A. Alleyne "Defining Microsensor Capabilities for Supersonic Boundary Layer Control " NASA Glenn Research Center, \$24,000, July 1999 – Oct. 1999.
41. E. Loth, P. Guebelle, S. White, D. Tortorelli "Smart Microflaps for Aeroelastic Transpiration for SBLI Flow Control" Air Force Office of Scientific Research, F49620-98-1-0381, \$85,401, March 1998 – November 1998.
42. E. Loth "Simulation of Icing Clouds and Droplet Impingement on Test Models" NASA Lewis Research Center, NAS 3-97011, \$124,072, Jan. 1997 – Sep. 1999.
43. E. Loth and D. Jeffers " Engineering Orientation for Students with Disabilities" PURSUIT (supported through NSF), \$12,078, April 1996 – April 1997.
44. E. Loth "Interaction Between Turbulence Modulation and Bubble Dispersion" Office of Naval Research, N00014-92-J-1157, \$256,000, Oct. 1991 – Dec. 1995.
45. E. Loth "Computational Methodology for Wind Tunnel Spray Bar Droplet Dispersion" Sverdrup (Arnold Engineering Development Center), AF SVERDRUP A955-11, \$52,000, August 1993 – November 1995.
46. W. Schowalter, M. Bragg, M. Brewster, R. Buckius, R. Burton, J. Dutton, B. Jones, H. Krier, E. Loth, J. Peters, W. Solomon "Renovation Of Mechanical Engineering Laboratory" National Science Foundation, \$750,000, October 1992 - October 1993.
47. E. Loth "Research Experience for Undergraduates" National Science Foundation Grant No. CTS-9010594x, \$8,000, April 1992 – August 1992.
48. E. Loth "Experimental and Computational Study of Supersonic Mixing Layers" National Science Foundation, CTS-9010594, \$70,000, July 1990 – Dec. 1992.
49. E. Loth "Investigation of Transient Compressible Flows Past 2-D and 3-D Objects" Science Applications International Corporation, DNA SAIC 21900208-82, \$90,886, Jan. 1990 – July 1992.
50. K. Kailasanath and E. Loth "Supersonic Nozzle and Test Body Computations." Strategic Systems Planning Office JON44-3310-0-9, \$250,000, January 1989 – January 1990 (granted to Naval Research Laboratory, Washington, D.C.).

BOOKS and PATENTS

BOOKS

1. E. Loth, Fluid Dynamics of Bubbles, Drops and Particles, Cambridge University Press (August, 2023).

BOOK CHAPTERS

1. E. Tetteh, E. Loth, M. Neuteboom, and J. Fisher “Icing on Compressors and Fans” in Gas Turbine Compressors and Fans, editor S. Wellborn, AIAA, April 2024.
2. S. Stebbins and E. Loth “Numerical Simulation of Iced Swept Wing Aerodynamics with RANS, DES, and IDDES” in Handbook of Numerical Simulation of In-Flight Icing, editor W. Habashi, Springer, 2023.
3. P. Li, E. Loth, etc. “Open Accumulator Isothermal Compressed Air Energy Storage (OA-ICAES) System” in Advances in Energy Storage, editor A. Bauer, Wiley, 2022.
4. E. Loth “Numerical Methods for Multiphase Flow” in Handbook on Multi-Phase Flows, editor C. Crowe, CRC Press, 2016.
5. A. Milionis, I.S. Bayer, and E. Loth “Recent Progress in Evaluating Mechanical Durability of Liquid Repellant Surfaces” in Advances in Contact Angle, Wettability and Adhesion, editor K.L. Mittal, John Wiley & Sons, 2015.
6. I.S. Bayer, A.J. Davis and E. Loth “Liquid Repellant Amorphous Carbon Nanoparticle Networks” in Advances in Contact Angle, Wettability and Adhesion, editor K.L. Mittal, John Wiley & Sons, 2015.
7. E. Loth “Overview of Multiphase Modeling” in Handbook on Multi-Phase Flows, editor C. Crowe, CRC Press, 2006.

GRANTED PATENTS

1. BJ Connolly, E Loth, CF Smith III “Turbine engine inertial particle separator with particle rebound suppression” US Patent 11,834,988, December 2023.
2. E. Loth, M. Selig and A. Steele "Morphing Segmented Wind Turbine and Related Method", US Patent No. 11466660, October 2022.
3. P. Snyder, E. Loth, and D. Barone "Particle Separator", U.S. Patent No. 11073083, July 2021.
4. Loth, E. and Selig, M.S., "2-D Fairing for a Wind Turbine Tower," US Patent No. 10415547, September 2019.
5. P. Snyder, E. Loth, and D. Barone "Particle Separator", Patent 10227924, filed Aug. 2014; March 2019.
6. E. Loth, H. Babinsky and S. Lee "Vortex Generators to Control Boundary Layer Interactions" US8656957, Feb. 2014.
7. E. Loth, J.C. Dutton, P. Geubelle, S. White, A. Alleyene, D. Tortorelli, S. McIlwain, and D. Davis, "Methods and Apparatus for Control of Shock/Boundary-Layer Interactions" US6651935; Nov. 2003.
8. E. Loth "Mesoflap Passive Transpiration System and Method for Shock/Boundary Layer Interaction Control" US5971327; Oct. 1999.
9. J. Loth, E. Loth, and F. Loth "Isolated Combustion and Diluted Expansion Piston Engine" US5239959, Aug. 1993.

INVITED PRESENTATIONS

- 1) "The future of wind power in the US" (keynote/Kickoff speaker) Blades Technology Forum, February 2024.
- 2) "A 50 MW offshore turbine and what's next for onshore wind?" National Renewable Energy Laboratory, Golden, Colorado, April 2023.
- 3) "The world's largest 50 MW offshore wind turbine design and next-generation offshore wind energy storage" Institute of Ocean Energy, Saga and Kyushu Universities, March 2023.
- 4) "World's Largest Wind Turbine and Compressed Air Energy Storage" Mechanical and Aerospace Engineering Seminar, University of Florida, January 2023.
- 5) "Offshore 25 MW Turbine for LCOE and future cost metrics" Department of Wind and Energy Systems, Technical University of Denmark, September 2022.
- 6) "Value and profitability metrics for wind and renewables" Wind Energy Systems Engineering Workshop, National Renewable Energy Laboratory, August 2022.
- 7) "Designing the World's Largest Wind Turbines" Barnes McCormick Memorial Lecture, Penn State University, March 2022.
- 8) "How do we design the Future of Wind Energy and Storage?" Energy Transitions Panel, Austrian Academy of Sciences, March 2022.
- 9) "Why we must move beyond LCOE for Renewable Energy Design" Keynote for 13th International Conference on Applied Energy, December 2021.
- 10) "Cost of Valued Energy and the Future of Wind Energy Storage Systems," World Energy Storage Conference & China-UK Energy Storage Technology Forum (hosted by Chinese Academy of Sciences), June 2021.
- 11) "Online Teaching Strategies," Aerospace Department Chairs Association Meeting, AIAA Sci Tech (online) Jan. 2021.
- 12) "Designing the World's Largest Wind Turbine: It is downwind" International Energy Agency, Task 40 Workshop (virtual), October 2020.
- 13) "Underground Energy Storage for Wind Turbine Farms," National Energy Technology Laboratory, Morgantown, WV, August 2020.
- 14) "Coating performance for impact ice conditions". NASA Glenn Research Center, July 2020.
- 15) "Extreme Scale Wind Turbines," University of Texas at Dallas, Dallas, TX, Nov. 2019.
- 16) "Wind Energy Advanced Concepts and Storage," University of Buffalo, Buffalo, NY, Sept. 2019.
- 17) "Morphing and Fluid-Structure Load Alignment for Extreme-Scale Wind Turbine Design," MIT Applied Energy Symposium, Cambridge, May 2019.
- 18) "Morphing and Fluid-Structure Alignment for Extreme-Scale Wind Turbine Design," Mechanical & Aerospace Engr., North Carolina State University, Raleigh, NC, Sept, 2018.
- 19) "Unsteady Fluid-Structure Interactions and World's Largest Wind Turbine?," Mechanical Engr. & Appl. Mechanics, Duke University, Durham, NC, April, 2018.
- 20) "Segmented Ultralight Morphing Rotor," Aeronautical and Astronomical Engineering, University of Washington, Seattle, WA, February, 2018.

- 21) "How Large Will Wind Turbines Become?" Mechanical Engr. & Aerospace Engineering, Case Western University, Cleveland, OH, February, 2018.
- 22) "Morphing Rotors for Extreme-Scale Wind Turbines," Mechanical Engr. & Appl. Mechanics, University of Pennsylvania, Philadelphia, PA, December, 2016.
- 23) "Technology Innovation in Off Shore Wind Systems," International Partnering Forum, Providence, RI, October, 2016.
- 24) "Observation of Novel Dynamics for a Low-Boom Relaxed-Compression Supersonic Inlet" National Institute of Aerospace, Oct. 2015.
- 25) "Morphing Wind Turbines," Mechanical & Aerospace Engineering, Princeton University, Princeton, NJ, March 2015.
- 26) "Acoustically Induced Shock Oscillation of a Low-Boom Inlet" AIAA Aerospace Sciences Meeting, AIAA-2015-1048, Kissimmee, FL, Jan. 2015.
- 27) "Extreme Scale Downwind Rotors," Sandia National Laboratories Turbine Blade Workshop, Albuquerque NM, October 2014.
- 28) "Segmented Ultralight Morphing Rotors for Wind Turbines," National Renewable Energy Laboratory, Golden CO, July 2014.
- 29) "Nanotextured Hemophobic Surfaces," NanoTech (Advanced Materials and Characterization), Washington DC, June 2014.
- 30) "Durability of Nanocomposite Superhydrophobic Coatings," Chemical Engineering, Massachusetts Institute of Technology (MIT), Cambridge, Mass, March 2014.
- 31) "Icephobic and Hemophobic Nanocomposite Superhydrophobic Coatings," Mechanical Engineering, Harvard University, Cambridge, Mass, March 2014.
- 32) "Drop Heat Transfer and Interaction for Compressed Air Energy Storage," Osney Thermo-Fluids Laboratory, Department of Engineering Science, University of Oxford, England, March 2013.
- 33) "Pressure and Shock Dynamics of a Low-Boom Inlet," Aerospace Sciences Meeting, AIAA 2013-0015, Grapevine, Texas, January 2013.
- 34) "A Canonical NSBLI Flow Relevant to External Compression Inlets," Aerospace Sciences Meeting, (Invited Presentation and Paper), AIAA 2013-0016, Grapevine, Texas, January 2013.
- 35) "Effects of Various Vortex Generator Configurations on a Normal Shock Wave / Boundary Layer interaction," Aerospace Sciences Meeting, AIAA 2013-0018, Grapevine, Texas, January 2013.
- 36) "Nano-Texturing for Energy Storage," Department of Mechanical Engineering, University of Minnesota, October 2012.
- 37) "Next Generation of Off-Shore Wind Turbines," Governor's Conference on Energy, Richmond, VA, October 2012.
- 38) "Simulating Fluid-Structure Interactions and a Novel Concept for Extreme-Scale Wind Turbines" National Institute of Aerospace, Oct. 2011.
- 39) "Segmented Ultralight Morphing Turbines," Fluids Seminar, Department of Engineering, University of Cambridge, England, June 2011.
- 40) "A Discrete Equation of Motion for Particle of Finite Size and Reynolds Number," AIAA Fluid Dynamics Meeting, Honolulu, Hawaii, June 2011.
- 41) "Simulations of a Supersonic Single-Stream Axisymmetric Inlet," AIAA Applied Aerodynamics Meeting, Honolulu, Hawaii, June 2011.
- 42) "Simulations of a Supersonic Dual-Stream Axisymmetric Inlet," AIAA Applied Aerodynamics Meeting, Honolulu, Hawaii, June 2011.

- 43) "Adhesion strength and superhydrophobicity in polyurethane/organoclay nanocomposites" TechConnect World, Boston, June 2011.
- 44) "Durable Nanocomposite Superhydrophobic Surfaces," Nanostar Symposium, Charlottesville, May 2011.
- 45) "Flow Control for Quiet Supersonic Inlets," Plenary Speaker Virginia Space Grant Consortium, Richmond, VA, April 2011.
- 46) "SBLI Vortex Generator Flow Control Physics," 4th Annual Shock-Wave/Boundary Layer Interaction Flow Control and Modeling Workshop, NASA Glenn Research Center, Cleveland, OH, April 2011.
- 47) "Morphing for Extreme-Scale Wind Turbines," Virginia Off-Shore Wind Supply Forum, Richmond, December 2010.
- 48) "Supersonic Inlet Flow Control," Department of Mechanical Engineering, University of Delaware, April 2009.
- 49) "Vortex Generators for Supersonic Turbulent Boundary Layers," Department of Aerospace and Ocean Engineering, Virginia Polytechnical Institute and State University, April 2009.
- 50) "Stable and Accurate Loosely-Coupled Scheme for Unsteady Fluid-Solid Interaction," Department of Aerospace and Ocean Engineering, Virginia Polytechnical Institute and State University, March 2008.
- 51) "High Accuracy and Stability Techniques for Fluid-Structure Simulation," Department of Mechanical Engineering, Univ. of Illinois at Chicago, April 2007.
- 52) "Electrolytic Micro-Bubbler Matrices," Department of Mechanical and Aerospace Engineering, Florida Institute of Technology, May 2006.
- 53) "Particle Dispersion in a Turbulent Boundary Layer via DNS and RANS flows," Department of Engineering, University of Cambridge (U.K.), November 2004.
- 54) "Micro-Fabrication for Generation of Bubbles and their Dispersion in Turbulent Flows," Combined seminar for Mechanical & Industrial Engineering and Iowa Institute of Hydraulic Research, University of Iowa, Iowa City, IA, Sept. 2003.
- 55) "Boundary Layer Control for Supersonic Inlets," Mechanical Engineering, Carnegie Mellon University, Pittsburgh, PA October 2002.
- 56) "Mesoflaps for Supersonic Inlet Flow Control," AIAA Fluid Dynamics Meeting, St. Louis, MO, June 2002.
- 57) "Smart Materials for Mesoflap Bleed and Injection," ASME Summer Fluids Engineering Meeting, FEDSM2001-18277, New Orleans, May-June 2001.
- 58) "Mesoflaps for Supersonic Engine Inlets," Department of Aero. & Astro. Engineering, Massachusetts Institute of Technology, Cambridge MA, Feb. 2000.
- 59) "Mixing Layer Turbulence and Bubble Deformation," Division of Engineering and Applied Sciences, Harvard University, Boston MA, Nov. 5, 1997.
- 60) "Free Shear Layer Turbulence and Ellipsoidal Bubble Forces," Center for Fluid Mechanics, Turbulence and Computation (Division of Applied Mathematics), Brown University, Providence RI, Sept. 9, 1997.
- 61) "Dynamics and Dispersion of Bubbles in a Turbulent Free Shear Layer," Naval Undersea Warfare Center, Newport RI, July 1996.
- 62) "Adaptive Grid Technology for Two-Phase Compressible Flow" Molten Metal Technology, Waltham, MA, May 1995
- 63) "Large Eddy Simulations of a Supersonic Shear Layer" University of Michigan, Mechanical Engineering Department, April 1993.

- 64) "Dynamics of Compressible and Two-Phase Fluids" Virginia Polytechnical Institute and State University, Blacksburg, VA, February, 1992.
- 65) "Vorticity and Mixing Layer Simulations" Naval Research Laboratory, Laboratory for Computational Physics, June 1991.
- 66) "Study of Plane Turbulent Underexpanded Air Jets in Water." Dayton Research Institute, Dayton, OH, July 1988.

JOURNAL and CONFERENCE ADMINISTRATION

Journal Editorial Activities:

Founding Board Member, Next Energy, 2023–
Guest Editor, Applied Energy, 2022–2023
Associate Editor, Coatings, 2014–
Associate Editor, Advances in Aerospace Science and Applications, 2008–2014.

Journal Reviewer (partial list):

AIAA Journal
AIAA Journal of Aircraft
AIAA Journal of Heat Transfer & Thermophysics
AIAA Journal of Propulsion & Power
Applied Energy
Applied Surface Science
ASME Journal of Fluids Engineering
Computers & Fluid
Experiments in Fluid
Experimental Thermal & Fluid Science
International Journal of Multiphase Flow
Journal of Applied Physics
Journal of Computational Physics
Journal of Fluid Mechanics
Journal of Heat Transfer
Journal of Micromechanics & Microengineering
Journal of Wind Engineering & Industrial Aerodynamics
Langmuir
Measurement Science and Technology
Particles & Particle Systems Characterization
Physics of Fluids
Powder Technology
Shock Waves
Theoretical and Computational Fluid Dynamics
Wind Energy

Professional/Conference Committees:

Host of National Academy of Engineering Panel on Energy Research, ASME
IMECE, Nov 2020
Intl. Scientific Committee, MIT/Harvard A+B Applied Energy Symp, 2019-
Host of National Academy of Engineering Panel on Aerospace Research, AIAA Sci
Tech, 2018
Technical Review Committee, TechConnect World, 2015
Vice-Chair, AIAA Air Breathing Propulsion Systems Integration Committee, 2015-
Member, AIAA Air Breathing Propulsion Systems Integration Committee, 2009-
Program Committee, 2007 International Conference of Multiphase Flow
Organizing Committee, 2005 APS Fluid Dynamics
Organizing Committee, 2004 International Conference of Multiphase Flow

Fluid Dynamics Program Committee, 2004 AIAA Aerospace Sciences Meeting
Fluid Dynamics Program Chair, 2003 AIAA Aerospace Sciences Meeting
Organizing Committee, 2002 AIAA Theoretical Fluid Dynamics Conference
Fluid Dynamics Program Committee, 2002 AIAA Aerospace Sciences Meeting
Organizing Committee, 2001 International Conference of Multiphase Flow
Member, 26th Intl. Combustion Symposium Program Review Committee, 1995
Member, AIAA Fluid Dynamics Technical Committee, 1995-
Member, ASME Coordinating Group for Fluid Measurement, 1991-
Member, ASME Coordinating Group on Two-Phase Flow, 1991-

Conference Session Chair:

"High-Speed Inlet Aerodynamics" 2020 AIAA Sci Tech Forum
"Inlet Integration and Performance" 2019 AIAA Propulsion & Energy Forum
"Advanced Wind Turbine Designs" 2019 AIAA Sci Tech Forum
"Inlets, Nozzles & Propulsion System Integration" 2018 AIAA Sci Tech Forum
"Inlet Distortion & Characterization" 2017 AIAA Sci Tech Forum
"Novel Inlet Systems" 2016 AIAA Sci Tech Forum
"Wind Energy Innovative Concepts" 2015 AIAA Wind Energy Symposium
"Aeronautical Research & Technology in Europe" 2014 AIAA Aero. Sci. Meeting
"Supersonic Inlets" 2013 AIAA Aerospace Sci. Meeting
"Propeller/Rotorcraft and Wind Turbines" 2012 AIAA Fluids Dynamics Meeting
"Supersonic Inlet Aerodynamics", 2012 AIAA Aerospace Sciences Meeting
"Inlet Flow Control", 2012 AIAA Aerospace Sciences Meeting
"Multiphase Flows", 2011 AIAA Fluids Dynamics Meeting
"Multiphase Flows", 2009 AIAA Fluids Dynamics Meeting
"Numerical Methods for Multiphase Flows", 2008 ASME Fluid Engineering Conf.
"Fluid-Structure Interactions", 2007 AIAA Fluid Dynamics Meeting
"Fluid Dynamics in Honor of Prof. Faeth", 2006 AIAA Aero. Sci. Meeting
"Turbulent Boundary Layer Modeling ", 2004 AIAA Aerospace Sciences Meeting
"MEMS for Fluid Dynamics", 2003 ASME Fluids Engineering Meeting
"Virtual Reality for Flow Visualization", 2003 ASME Fluids Engineering Meeting
"Viscous Flows", 2002 AIAA Fluids Dynamics Meeting
"Multiphase Flows", 2002 AIAA Fluids Dynamics Meeting
"Transition and Receptivity", 2002 AIAA Aerospace Sciences Meeting
"Bubble Dynamics", 2001 International Conference of Multiphase Flow
"MEMS for Fluid Measurement", 2001 ASME Fluids Dynamics Meeting
"Gas Turbine Inlet Flow Controls", 2000 AIAA Fluids Dynamics Meeting
"Numerical Methods - Advances", 2000 AIAA Aerospace Sciences Meeting
"Boundary Layers", 2000 AIAA Aerospace Sciences Meeting
"Modeling Multiphase Flows", 1999 ASME Fluids Dynamics Meeting
"Flow Control", 1999 ASME Fluids Dynamics Meeting
"Multiphase Flows", 1999 AIAA Fluids Dynamics Meeting
"Numerical Methods for Multiphase Flows", 1998 ASME Fluids Engr. Meeting
"Shock Interaction Flows", 1997 AIAA Aerospace Sciences Meeting

JOURNAL ARTICLES (* current or former Loth-advised students)
