128 credits - minimum required for graduation

(1) Suitable science elective I courses are shown on SEAS approved list.

- (2) Suitable advanced science electives should be chosen from 2000, 3000, and 4000 level science or mathematics courses approved for science majors. See list on SE website for details.
- (3) Nine credits of humanities and social science electives should be selected in a related subject area of humanities and social sciences. See link to appropriate courses on SE website
- (4) Nine credits of applications electives should be selected in a related applications area of systems engineering. See list on SE website.
- (5) Technical electives see technical electives policy on SE website.
