

# ENGINEERING

## **Cooperative Academic Agreements with UVA** our “3+2” or “5-year masters” programs

Cooperative Academic Agreements (CAAs) provide great benefits to advanced students at our partner institutions listed here, letting them transition smoothly into graduate study at UVA Engineering.

1. Hampden-Sydney College
2. James Madison University
3. Longwood University
4. Lynchburg College
5. Mary Baldwin College
6. Randolph College
7. Sweet Briar College
8. University of Richmond
9. UVA Wise
10. West Virginia Wesleyan College

Under these five-year programs, students earn a Bachelor of Science (BS) from their home institution, typically in a science or mathematics discipline, and a Master of Engineering (ME) degree from UVA. Students spend their first three years at their home institution completing core requirements. After meeting specific academic criteria, they apply to UVA as non-degree-seeking students to take courses that can be transferred to complete their BS and prepare them for graduate engineering studies at UVA. They subsequently apply for formal admission to UVA's graduate engineering program.

If you want to take advantage of this program, please reach out to a representative at your home institution or UVA for the most current and detailed information.
