(1) Math and Science Elective - Chosen from the SEAS Undergraduate Dean's Office Approved List of Math and Science Electives, available online and in Thornton A-122. Recommended: CHEM 1420/21 or PHYS 2620.

(2) HSS electives are chosen from the approved list available in A-122 Thornton.

(3) Secondary minor electives must be chosen so as to earn an approved technical minor in SEAS, mathematics, or a natural science. Once requirements are satisfied, any 2xxx, 3xxx, or 4xxx technical SEAS, mathematics, or natural science course is acceptable.

(4) Advanced Math/CS Elective: 3xxx-level or higher mathematics courses in SEAS or CLAS; or one 2xxx-level or higher course in computer science.

(5) MSE 3101 Materials Science Investigations partially fulfills the laboratory requirements of the ES major.

(6) Science Elective: Either CHEM 1420 with lab or PHYS 2620 is required.

(7) Unrestricted electives may be chosen from any graded course in the University except mathematics courses below MATH 1310, including STAT 1100 and STAT 1120, and courses that substantially duplicate others used for the student's degree.

(8) The Advanced MSE Independent Project is a graded research, independent study, or design course.

(9) MSE Electives are chosen from any MSE lecture-based courses, CHE 4449 (Polymers), ECE 3103 (Solid State Devices, and BME 4414 (Biomaterials).
