

STOP THE CONTAGION

AN INTRODUCTION TO INFECTIOUS DISEASES

Summer enrichment class for high school students

Intro to biology preferred, but not necessary

Length: 5 days, 3 hours/day

Learn all about infectious diseases! This class presents an interactive learning experience to teach high schoolers about the basics of viral, bacterial, and fungal diseases, how our immune system fights them off, how we can help prevent them, and how infectious disease affect world politics. Contact Page Murray at pcm3xu@virginia.edu or Sydney Henriques at srh2eq@virginia.edu with questions!
