SUPERHERO SCIENCE CAMP

WEEK-LONG CLASS OFFERED THROUGH SUMMER
RECOMMENDED GRADES: 5-6
TAUGHT BY UVA STUDENTS

Have you ever wondered how Captain Marvel can fly? Or how the Flash can run so fast? What about how Frozone can create ice out of nothing? In this Superhero Science class, we will use activities and experiments to go "behind the scenes" and explain the science of some of your favorite superheroes!

Course Instructors:
Neha Awasthi, na9ve@virginia.edu
Rachel Yates, ray2bb@virginia.edu

**May need to purchase materials**
