When Life Gives You Lemons...

During this week-long, fun filled camp, kids will have the opportunity to create their own lemonade stand! But not just your typical summertime shack- they will be building their own business from the ground up. They will learn and implement the basics of business and advertising, which will help them to develop their brand and business plan.

Through budgeting and planning activities, they will also be able to hone in on their math, critical thinking, and problem solving skills. The week will conclude with the kids presenting their business plans and celebrating with a refreshing glass of their own lemonade. This course is best suited for grades 5 & 6.
